

From Obs: "While skiing one of our intended slopes, one of my partners skied over a small rollover and as he arrived at the bottom of the small slope a pocket had released above him and stopped just above where he was standing. The culprit was again the recent snow on top of older faceted snow." Photo: Anonymous

Advisory Region Northern Gallatin Longitude -111.00W Latitude 45.44N **Avalanche Details:** <u>Small Skier Triggered Avalanche on Mt. Blackmore</u> Northern Gallatin, 2024-01-10
